GUIDE

SPLIT PURPOSE CABIN

The Split Purpose Cabin is an ideal solution for compact working locations, offering the ultimate in space efficiency. Also to power and provide instrumentation for the ROVs, Tether Management System (TMS), deck pack and other ancillary functions. The Cabin is divided into two areas: 1) Control Cabin and 2) Workshop / Stores.

The control cabin is designed to provide facilities for personnel to operate Remotely Operated Vehicles (ROVs) in a safe comfortable environment. The workshop is a non-pressurised area, accessed via double doors, fitted with heavy-duty workbench and storage cage. The layout of the interior Cabin & Workshop will be designed by the in-house team to fully meet client specifications.

Tech Safe Systems Ltd design and manufacture Cabins and Containers to satisfy a variety of purposes e.g. laboratories, control cabins, offices, workshops, etc. Our designs have been developed to meet the demands of regulatory standards worldwide for both Safe Area and ATEX hazardous environments.
