

# WORKSHOP & STORES CABIN

The Workshop and Stores Cabin is designed to provide facilities for personnel to maintain Remotely Operated Vehicles (ROVs) along with storage space for spares and tooling.

The cabin is non-pressurised and accessed via double doors or an optional personnel door. It is fitted out with a heavy duty workbench and storage cage. The layout of the interior can be designed by the in-house team to fully meet client specifications. It is available in 10ft, 16ft and 20ft versions as standard, other options available upon request.

Tech Safe Systems Ltd design and manufacture Cabins and Containers to satisfy a variety of purposes e.g. laboratories, control cabins, offices, workshops, etc. Our designs have been developed to meet the demands of regulatory standards worldwide for both Safe Area and ATEX hazardous environments.
